

DAILY ONLINE ACTIVITIES SUMMARY

Date:	29/06/2020	Name:	Pramod R
Sem & Sec	4 th sem B section	USN:	4AL18CS059
Online Test Summary			
Subject	-		
Max. Marks	-	Score	-
Certification Course Summary			
Course	Java Programming for Complete Beginners		
Certificate Provider	Udemy	Duration	1 Hour
Coding Challenges			
Problem Statement: Given a list of numbers, write a Python program to count Even and Odd numbers in a List.			
Status: Completed			
Uploaded the report in Github		YES	
If yes Repository name		https://github.com/alvas-education-foundation/Pramod_R	
Uploaded the report in slack		YES	

Certification Course Details: (Attach the snapshot and briefly write the report for the same)

The screenshot shows a web browser displaying a Udemy course page. The browser's address bar shows the URL: `udemy.com/course/java-programming-tutorial-for-beginners/learn/lecture/9565436#overview`. The page header includes the Udemy logo and the course title "Java Programming for Complete Beginners". Below the header, there is a video player showing a terminal window with the following code:

```
jshell> System.out.println("I love JShell");
I love JShell

jshell> class Country {
...> }
| created class Country

jshell> Count
```

The video player has a play button in the center and a progress bar at the bottom. To the right of the video player, there is a "Course content" sidebar with a list of steps and sections. The steps listed are:

- 58. Step 02 - Java Class and Object - First Look (6min)
- 59. Step 03 - Create a method in a Java class (6min)
- 60. UPDATE : DO NOT WORRY IF YOU FACE PROBLEMS IN NEXT 3 STEPS (1min)
- 61. Step 04 - Create and Compile Planet.java class (6min)
- 62. Step 05 - Run Planet class with Java - Using a main method (6min)
- 63. Step 06 - Play and Learn with Planet Class (5min)
- 64. Step 07 - JDK vs JRE vs JVM (6min)

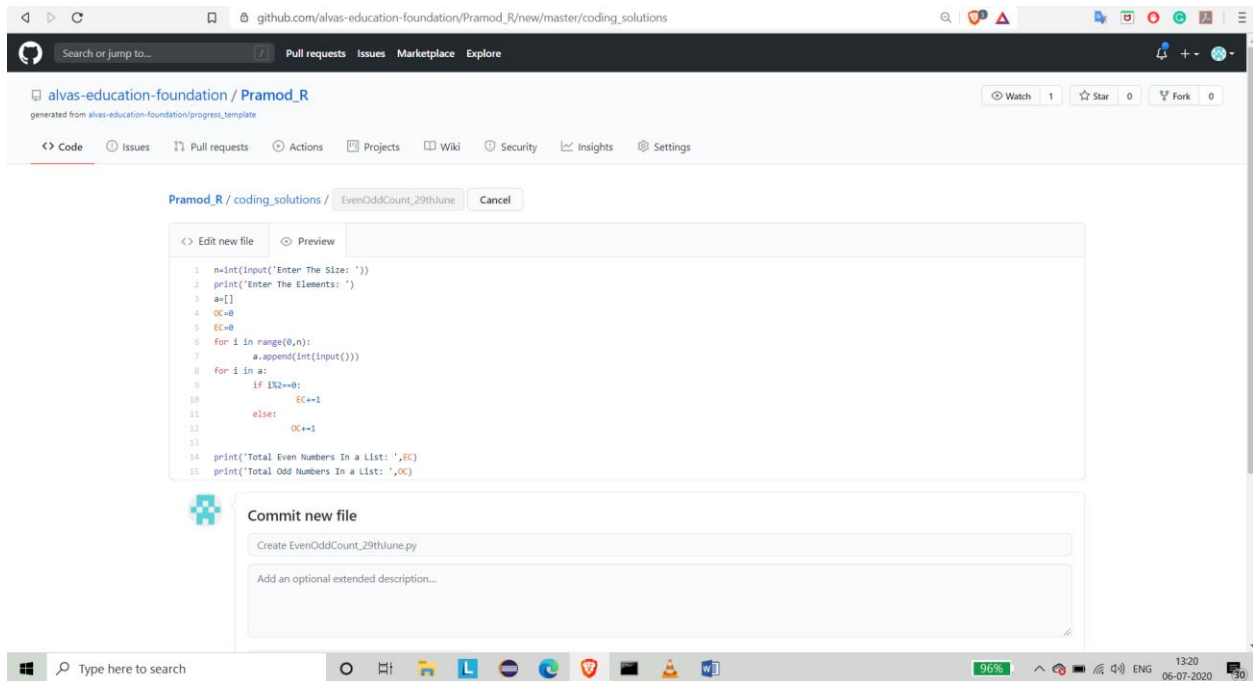

Below the steps, there are two sections:

- Section 6: Introduction to Eclipse - First Java Programming Project (9 / 9 | 47min)
- Section 7: Github Book (1 / 1 | 1min)

At the bottom of the page, there is a section titled "About this course" with the text: "Learn Java Programming with 200+ code examples. For Absolute Java Beginners! Start Learning Java Programming Now!"

The course I have chosen during the lockdown period is **Java Programming for Complete Beginners**. Since I had previously knew few topics about Java I am continuing this course. Since Java is used in major application development, I have chosen this course.

Certification Course Details: (Attach the snapshot and briefly write the report for the same)

The question we had received today was :

Given a list of numbers, write a Python program to count Even and Odd numbers in a List.

Code: The above snapshot is the code which I have uploaded in my github repository.
